INDIANAPOLIS NATIONAL Designated United States Depository. Corner Boom, Odd-fellows' Hall.

THEO. P. HAUGHEY, Pres't. E. E. REXFORD, Cash'r.

CONDITION OF THE MARKETS

Wheat Quiet and Influenced by the Weather and Visible Supply Reports.

Corn Weakened by Large Arrivals-A Weak Feeling and Dull Trade in Oats-Hog Products Quiet and Easy.

MONEY, STOCKS AND BONDS.

A Notably Strong and Active Market, Closing at the Highest Prices of the Week. NEW YORK, May 25 .- Money on call was easy, with no loans, and the closing was offered at 212 per cent.

Prime mercantile paper, 312@512 per cent. Sterling exchange dull but steady at \$4.8714

for sixty-day bills, and \$4.89 for demand. Total sales of stocks to-day were 218,987 shares, as follows: Atchison, 21,495; Delaware, Lackawanna & Western, 16,500; Erie, 3,820; Lake Shore, 8,575; Louisville & Nashville, 3,100: Missouri Pacific, 5,700; Northwestern, 20.750; Northern Pacific preferred, 3,305; Reading, 13,-955; Richmond & West Point, 7,660; St. Paul, 42,110; Union Pacific, 3,806; Western Union,

The stock market was again very active this morning, but it developed the same decided strength which has characterized it during the past few days, and prices at the close were at the highest for the week. The extreme doubt as to the length to which the reaction begun yesterday would extend, made the opening this morning quite ragged, though the only marked changes from last evening's figures were declines. The market hesitated for a short time under the continuance of the realizations, but the buying was of the same excellent character that has prevailed of late, and the weakness in a few shares quickly disappeared. The animation in the market was not so pronounced during the prevalence of the hesitation, but later the activity became very great, and with the grangers in the lead everything moved up materially. The Trust stocks were also again very prominent in the trading, and Lead Trusts took the lead, followed by Cotton Oil the latter touching 55%.

ton Oil, the latter touching 581s. A slight reaction was made toward 11 o'clock, but the up ward movement was quickly continued without a the close, which was active and strong at the highest prices of the day. St. Paul led the list in point of activity, but its final gain was a fraction only. The final changes are almost invariably in the direction of higher figures. Burlington and Rock Island rose 118 per

cent. each, and Northwestern 1 per cent.

Railroad bonds were active, and the sales aggregated \$1,161,000. Of this amount Fort Worth & Denver firsts contributed \$168,000 and Denver & Rio Grande Western certificates, \$162,000. The market was strong, but the market advances were in spots while but the marked advances were in spots, while the general list was but slightly changed. The important gains comprise Denver & Rio Grande Western assented, 34, to 904: certificates, 25, to 91½, and Atchison, Colorado & Pacific firsts, 3, to 95. Sales of bonds for the week were, \$10,-868,000, against \$7,654,000 for last week.

Government bonds were dull and steady. State bonds have been dull and firm. Closing

TRADING AT CHICAGO.

The Ups and Downs of the Market, with the Range in Prices of Leading Articles. CHICAGO, May 25 .- There was less doing in wheat to-day, and a quiet, slow trade was reported during most of the session. The feeling was weaker, and yet no very important decline was established. Opening sales were le@140 higher than yesterday, and, after fluctuating within a small range for some time, became
week and prices declined 750, recovered 250,

within a small range for some time, became
week and prices declined 750, recovered 250,

ruled easy, and closed at 3sc lower than yesterday. Some parties who were named as the principal buyars yesterday sold moderately to-day. Advices were received reporting rain in Texas, and as harvesting is thought to be in progress there, the market strengthened some by these reports. Home markets were all easier. It was estimated that the visible supply would not vary much from 1,000,000 bushels to 1,200,000 bushels decrease. A fair trade was reported in corn, at a further decline in price. The weakening factor was the large arrivals. The market opened a shade under the closing prices of yesterday, declined 3sc, became less active, and ruled steady, closing \(^14\alpha\) 3sc lower than yesterday. There was considerable covering by "shorts" on the decline, which had a tendency to steady the market. A weak feeling prevailed in oats, and, although trading was less active, prices declined \(^14\alpha\) 2c, and the market closed quiet at about inside figures. The weakness was due to continued heavy receipts. A quiet and dull feeling prevailed in mess pork. Prices declined \(^{17\frac{1}{2}\alpha\) 20c, and the market closed quiet. Trading was rather light in the lard market, and the feeling was easy. Early the market showed a little more steadiness and prices inversed elightly. Later however. Early the market showed a little more steadiness and prices improved slightly. Later, however, the feeling was easier and the advance was lost. Short-ribs were moderately active. Prices ruled .05@.0712clower, and the market closed steady at the reduction. The leading futures were as fol-

Receipts—Flour, 2,000 brls; wheat. 16,000 bu; corn, 96,000 bu; oats, 43,000 bu; rye, 2,000 bu; barley, none. Shipments-Flour, 5,000 brls; barley, 10,000 bu; corn, 25,000 bu; oats, 6,000 bu; rye, 1,000 bu; barley, none.

MINNEAPOLIS, May 25.—There was a lack of outside orders in the sample market, and, while the shipments of wheat were larger than on any of the previous few days, the grain was mostly going out on old purchases made in the past. Buyers for outside millers were not doing much, and there was also little buying for local account. The settled policy of doing nothing on Saturday on the prospect of heavy receipts and a lower range of prices on Monday has become so regular with buyers that sellers do not look for much business on Saturday. The receipts were 153 car-loads. Prices about unchanged from yesterday's range. Closing quotations: No. 1 hard, May, 95c; July, 96c; on track, 95c; No. 1 Northern, May, 85c; July, 857sc; September, 75c; on track, 85@87c; No. 2 Northern, May, 76c;

Dry Goods. NEW YORK, May 25.—There was a continued special movement in bleached shirtings at a 4c off, to which Masonville 4-4 was added to-day, the price being made 81c. The indications are that this is the end, and that prices will shortly be restored. Unticketed goods have been sold considerably ahead in some instances. The market is well sustained, and there is a strong upward undertone. Interest centers in next week's depred sales favorable results of which are an flannel saies, favorable results of which are anticipated.

Cotton. NEW ORLEANS. May 25.—Cotton quiet; middling, 105sc; low middling, 101-16c; good ordinary, 912c. Net receipts, 9 bales; gross receipts, 159 bales; exports to Great Britain, 3,995 bales; exports coastwise, 509 bales; sales, 300 bales; stock, 69,044 bales.

LIVERPOOL, May 25.—Cotton quiet and rather easier. Sales, 5,000 bales, of which 500 bales were for speculation and export, and included 4,100 bales of American.

NEW YORK, May 25.—Copper dull but steady; lake, June, 12c. Lead firm and moderately active; domestic, 3.87½c. Tin brisker; Straits, 20.55c.

Metals.

ST. LOUIS, May 25.—Lead dull; soft Missouri, 3.55@3.5712c; refined, 3.60@3.6212c.

Wool. ST. LOUIS, May 25.—Wool—Market easy and somewhat lower. In order to realize outside figures wool must be strictly up to the standard in both qualities and condition. Bright medium, 20@26c; coarse braid, 15@23c; low sandy, 12@ 19c; fine light, 17@24c; fine heavy, 12@20c; tub-

washed, choice, 37c; inferior, 32@35c. LIVE STOCK.

Hogs stronger. Common and light, \$3.35.0

4.60; packing and butchers, \$4.30.04.50. Receipts, 1,400; shipments, 950.

INDIANAPOLIS MARKETS.

The Trade of the Week Hardly Up to Expectations-Few Fluctuations in Values.

INDIANAPOLIS, May 25. In most departments trade to-day did not reach the expectations of the early part of the week. This is largely due to the cool weather which has prevailed for the past five days. The dry goods men felt the dullness the most, but prices on all lines of dry goods ruled strong, and the sales of the year thus far are handsomely in excess of those of the corresponding eighteen weeks of 1888. Grocers have had a good trade. Sugars are moving quite freely and coffees are meeting with fair sales. Canned goods and dried fruits are selling as well as could be expected at this season of the year, and when it is considered that there is an overstock all over the country. In the produce markets trade has been only fair. Poultry, butter and eggs all carry an easy tone at about the same range of prices as that of a week ago. Early vegetables are coming in freely and prices have weakened somewhat. Green peas, cucumbers and cabbage are all in good supply and selling low for May. Receipts of cherries, gooseberries, and strawberries were of cherries, gooseberries and strawberries were quite large to-day, but with a good demand the arrivals were well disposed of. Oranges and lemons are in brisk demand and advancing steadily in price. Druggists are busy. Oils advanced another cent per gallon to-day and rule very firm on an active demand. The hardware market is active and prices firm on most articles. Dealers in tinners' supplies report their trade improving. The wool market continues firm, the new clip coming in freely. Other markets present no new features.

The Indianapolis Market Report shows the receipts of wheat to-day to have been but 1,800

bushels. The market is weak again. Wheat—We quote No. 2 red, 79@8012e; No. 3 red, 73@76c; rejected, 60@65c. Corn-Receipts, 22,200 bu; yesterday, 25,200 bu. The demand for white grades is good and prices well maintained; mixed and yellow slow sale. Shippers report the Eastern demand very small. We quote No. 1 white, 35c; No. 2 white, 34 \$\overline{x}34\veryce{1}{2}c; No. 3 white, 32\veryce{1}{2}c, if one color, 34\veryce{1}\overline{x}34\veryce{1}c; No. 4 white, 32\veryce{1}{2}c; No. 2 yellow, 32½c; No. 3 yellow, 32c; No. 4 yellow, 31½c; No. 2 mixed, 32½a33c; No. 3 mixed, 32½c; ear, 31½a32c. Shippers are bidding for direct shipment from country points on the basis of Indianapolis rates of freight: Mixed corn, 29a 29½c; high mixed, 29½a30c.

Oats—Receipts, 30,000 bu; yesterday, 22,000 bu. Market is weak, but prices little

changed. We quote No. 2, white, 2713c; No. 3, white, 26c; No. 2, mixed, 243, 25c; rejected, 21

Bran—The shippers' report demand to be light. They are bidding \$8.50 per ton. Local dealers are paying \$9.50.

Hominy Feed—Selling at \$10\varticle 10.25.

Hay and Straw—Receipts, 4 cars; yesterday, 6 cars. Shippers report an improved inquiry, but city trade is dull, and prices low. Timothy hay, choice, \$11.75\varticle 12; No. 1, \$11; No. 2, \$9; Prairie, No. 1, \$8; No. 2, \$5.

SEED MERCHANTS.

78 & 80 East Market St., Indianapolis.

Crochet Work. Philadelphia Times. Ordinary lace patterns are worked crosswise, back and forth in rows, the work wise, back and forth in rows, the work being turned at every row. More artistic patterns are worked lengthwise, a new thread taken for every row, all the work in one direction, thus forming a right and a wrong side. Other patterns still are done principally crosswise, then finished by a lengthwise heading and row of scallops. Some of the pretty linen edgings known as Irish crochet are worked in the two latter

ways.

In working with thread work as tightly and compactly as possible. But if for any reason you choose to use silk or wool, work as loosely and as lightly as possible.

If you wish to find an artistic use for your crochet work it would pay you to buy a small piece of Irish point and analyze it carefully. But I can tell you something of value in advance:

value in advance: Wheels, rosettes, pet als, medallions and other solid figures, in double and treble crochet, are often made separately and then joined. The joining is done in chain and single crochet, or in an open webbing, sug-

gesting lace stitches. Contrary to a popular opinion, it is not necessary that crochet work should be all in one piece—in fact, it is more artistic when made in sections. You can experiment and dabble with your crochet-hook as well as with your brush or needle. You are bound by no limitations except your own taste and the character of the material

employed. If you like, you can bring the needle and shuttle to your aid and introduce tatting, lace and embroidery stitches to supplement your crochet work. It has already become a common practice to use crochet stitches to supplement knitting.

If you ever learn to make point lace of Honiton braids you can add a picot edge of single crochet and looped tatting-like picots with a crochet-hook and that fine lace thread known as "little mill" or "nun's thread." Another artistic use for chrochet stitching is to cut figures out of Hamburg embroideries, border them with single crochet and chain stitch to form a medal-lion and then join these medallions by a simple network of chains, picots, etc., to make a band of edging or insertion.

And still another artistic way of utilizing crochet stitches is to take brass rings, work over them a covering in silk of single crochet and then introduce these rings into art embroidery, fastening them to the material like applique figures.

Training Heifers.

American Agriculturist. The term "breaking" as applied to the domestic animals has an unpleasant signification. It indicates bad management forcibly remedied. A calf or colt should be trained from birth, and it should be gradually led in the way it should go-the word "educated" has precisely this meaning-by a constant progressive course of kind and considerate treatment. A heifer calf should be weaned at its birth. If its natural instinctive proclivities are to be repressed and obliterated, this is the time to begin, before the germs of these have to begin, before the germs of these have had opportunity to grow into a habit. Hence a calf should not be permitted to suck the dam and should be taught to drink from a pail. Have a leather collar strong enough to hold it, with a ring sewn in it, and a rope with a snap hook attached to tie it with in the pen. Then it should be handled (brushed is better) quite frequently, until it is used to it and makes no resistence, but rather likes it. As it grows older its under and likes it. As it grows older its udder and teats should be rubbed and pulled, as if in milking. This not only makes it docile, but it helps the development of the udder, and increases its future capacity. A heifer may be brought to milk in this way before it has had a calf, and instances of this lacteal precocity are not infrequent in dairies where calves are permitted to suck each other, although this is a great mistake, and

and breaking, with the discipline of a club, a boot, or a milking-stool, will not be re-

quired.

is provocative of vicious habits, such as self-sucking and sucking other cows. When

the heifer has a calf, it is already trained,

Farm Notes. Colman's Rural World says our country will never be so prosperous and happy as when it shall be divided into small farms, and millions of toilers shall literally sit under their own vine and fig tree.

"A humorous old agriculturist," says the Newell (Ia.) Mirror, "tells the editor that he has a Jersey cow which he carries across the field to a good place and then milks her, getting so much milk that he cannot carry it back to the house."

For mildew on gooseberriess dust sulphur over the bushes after each rain. Do not allow the bushes to grow very thick. plentiful supply of sunlight and air is desirable; hence the bushes should be cut out and thinned if too close together.

The Western Farmer urges the importance of hiring married men and furnishing them with homes. It says: "The industrious foreigner that will work by the year for \$200 and an acre of land where he can keep his own cow and raise his own vege-tables will do 25 per cent. more work than the average single man."

Moles are sometimes useful as protectors of strawberry vines. An Indiana fruit-grower considers them invaluable. He puts about twelve moles in a five-acre patch every season to catch the grubs, and they do the work. Since he tried the experiment he states that he has not had a vine injured by the grubs or moles.

One of the principal causes of heaves in horses is the feeding of dirty or dusty hay. Ordinarily clean hay can always be fed with safety, if properly cut up, moistened and mixed with ground grain, but to feed the musty or dirty sorts is very injurious. Clover, owing to its liability to crumble, often gets dirty, even after storage, and should never be fed without being previously moistened.

The apple-tree tent caterpillars and their cousins, the forest-tree caterpillars, have already hatched, and the former have commenced their webs in the forks of the branches of the apple and cherry-trees. By going through the orchard in the early morning, when the sun is shining clearly these webs or nests are readily discovered, and the little caterpillars are easily destroyed at this early stage of their growth.

A splendid substitute for brush for peas or pole-beans is made by driving strong stakes about twelve feet apart in the row, leaving them thirty inches high, and fastening a smooth fencing-wire along the tops and another within six inches of the ground. Wrapping-twine is then passed back and forth between the wires. The stakes and wires cost but little, are easily put away, and will last for years.

Mr. W. Brazelton, of Monticello, Ia., writes to Hoard's Dairyman that there is no need of farmer's wasting their money at buying an expensive horn-killing preparation, when he knows by successful use that a penny's worth of caustic potash will take all the "grow" out of the germ of the born. He applies it before the horn protudes through the skin of the calf, wetting the spot so that he can part the hair to the skin. He holds the potash wrapped in a paper, so as not to get burned himself.

E. Connor, of Woodville, Wis., writes to the Western Farmer that the idea of an established price for a swarm of bees is as erroneous as it would be for a horse or a cow. "I have refused to buy at \$5 per swarm, because I thought they were not worth it. I have seen others that were cheap at \$10. What they are worth depends entirely on their condition, and I would not buy without first examining, if I could; if weight, 83c; 45 ms average sides and 25 ms average backs, 4c less than above quotations; 20 ms average bellies, 3c less. Dry Salt and Pickled Meats—Clear sides (unsmoked), 73c; clear backs (unsmoked), 73c; clear bellies (unsmoked), 73c; bean pork, 4 brl 200 ms, \$13.00. Bologna—Skin, large or small, 63c; cloth, large or buy good ones at from \$6 to \$8."
